Flame 46

DUBUIT

The **FLAME 46** is a vertical flame treatment machine that can treat most kind of crates and flat sided containers. The triple row burners are arranged on both sides of the conveyor to provide an efficient 2 side-flaming.

This machine is equipped with universal burners and is suitable for any gas. The intensity and height of the flame can be adjusted to suit the grade and wall thickness of the containers.

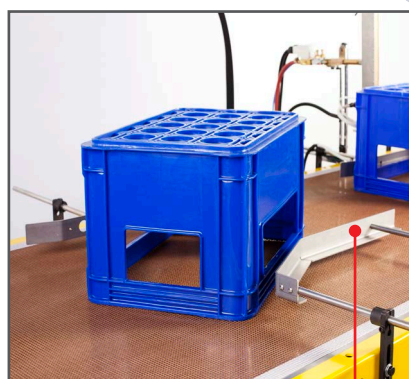

**Displayed model features 4 burners and "flip over" optional device. Standard model 4 meters and 2 burners.*

- ▶ **Big flat objects**
- ▶ **Adjustable burners**
- ▶ **Easy to use and disassemble**
- ▶ **Adjustable conveyor speed**
- ▶ **Rotation device available for 4-sided flaming (optional)**
